Internal Auditor's recommendations

What is the issue?

The internal auditor has made a few recommendations in respect to the internal controls/financial systems of the smaller authority.

Why has this issue been raised?

The smaller authority is exposed to the risks associated with these weaknesses.

What do we recommend you do?

The smaller authority must implement the recommendations made by the internal auditor to improve the financial systems of the smaller authority as soon as possible or in any event before the end of the current financial year.

If the smaller authority addresses all the issues raised by the internal auditor the smaller authority should improve internal controls which will help to prevent and detect error and fraud and assist the smaller authority to operate in an effective and efficient manner.
